25X1 1. [REDACTED] Comment. As compared with the last reported period, the total loading performance decreased slightly. The number of railroad cars claimed by the Soviets dropped to the normal level of 300 to 400 cars per day. This indicates that large troop movements connected with fall maneuvers were completed.

25X1 2. [REDACTED] Comment. These data supplement previous information by a breakdown of the total loading performance into that of individual railroad districts,
